

A red Isuzu MU-X SUV is shown driving through a river, splashing water. The vehicle is positioned in the center-left of the frame, moving towards the right. The background features rolling green hills and a dirt road winding through the landscape. The sky is clear and blue. The overall scene conveys a sense of adventure and off-road capability.

GO YOUR OWN WAY

YOUR LIFE YOUR WAY

INTRODUCING THE 7 SEAT ISUZU MU-X. A GO ANYWHERE SUV THAT REDEFINES THE BOUNDARIES OF ADVENTURE.

Whether you're navigating peak-hour on the weekday school run or traversing whatever the wildest weekend can throw at you, the Isuzu MU-X has you covered for the routine, extreme, and everything in between. Enjoy a passenger car-like driving experience you have come to expect from today's modern SUVs, but with a bulletproof 4WD drivetrain mated to one of the world's most robust diesel engines. The MU-X will deliver you the opportunity to test your off-road ability like never before.

A new world awaits, Isuzu MU-X - GO YOUR OWN WAY.

A**B****C****D**

YOUR PIECE OF HISTORY

A driving force for over a century.

Isuzu Motors has the longest history of any Japanese vehicle manufacturer with a heritage that stretches back to 1916. As one of the world's largest producers of commercial diesel engines, Isuzu Motors have produced over 26 million engines to date and are leaders in the production of commercial diesel engines. Isuzu diesel engines are relied upon by top-level automobile manufacturers around the world to deliver superior performance and exceptional fuel economy. With the Isuzu MU-X, this vast heritage is distilled into a powerful and efficient engine and coated in a sophisticated exterior.

Since its launch, the Isuzu MU-X has been trusted by families and businesses to get them where they need to go day in and day out. They are depended upon to traverse the toughest of terrains, to find that perfect spot and to make it back home again.

The Isuzu MU-X has a long, proud history of performance behind it and an even longer road filled with adventure in front.

- A** 1992 saw the introduction of the second model Isuzu Trooper to the US market
- B** 2001 saw the release of the Isuzu Rodeo fitted with a precursor to our Terrain Command 4WD system
- C** 2002 saw the release of the Isuzu Axiom to the US market
- D** 2004 saw the introduction of the D-MAX-based 7-seat MU-7 to the Thai market

4x4 LS-T in Magnetic Red mica

YOUR TIME TO IMPRESS

Bold, adventurous styling.

The Isuzu MU-X strikes a commanding stance. With suave city style meshed with tough off-road tones, the MU-X will turn heads for all the right reasons. Available in three different spec levels in both 4x2 and 4x4, there's an MU-X that not only looks the part, but is appropriately designed with all the features required to suit any driving purpose.

Whether your rendezvous is on the red carpet or off the beaten track, the MU-X looks at home in any setting and on any terrain.

Effortlessly, the MU-X blurs the boundaries between the city and the outback – providing you and your family with an endless choice of exciting destinations.

- A** 18" alloy wheels come standard on LS-U and LS-T models, letting your MU-X traverse any terrain in style
- B** Striking LED Daytime Running Lights (DRLs) and Bi-LED projector headlights with auto-levelling functionality let you stand out on the road and are standard on all models
- C** Ultra-bright LED taillights help to keep your MU-X safe and easily visible any time of the day or night

4x4 LS-T in Titanium Silver metallic

YOUR POWER TO PERFORM

Behind the style, there's plenty of substance.

With 3 tonne braked towing* across the entire range, the Isuzu MU-X never knocks back hard work. Be it towing your boat, caravan, horse float or trailer, the MU-X does it effortlessly and with confidence – thanks to the ingenious Isuzu technology and Japanese engineering under the bonnet.

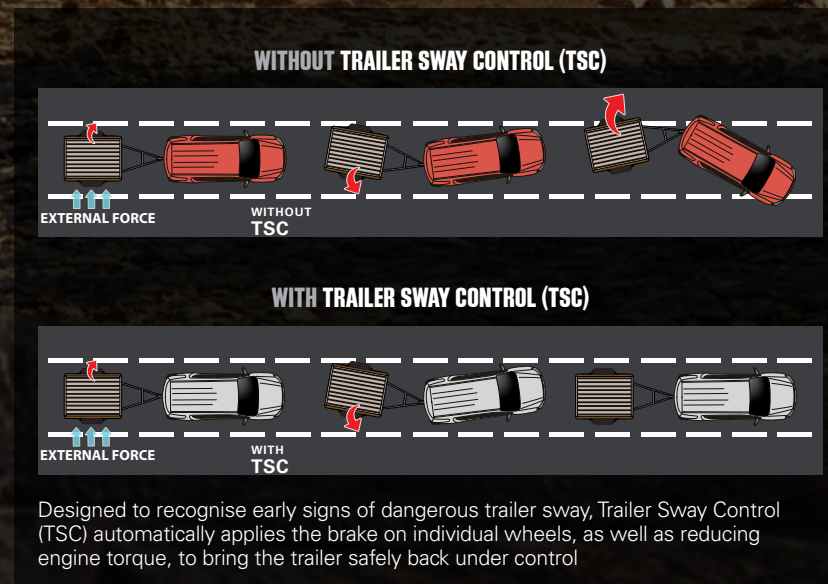

Delivering 130kW of power and 430Nm of torque, the high-pressure common rail fuel injection system makes the most of every drop of fuel, and the intercooled Variable Geometry System (VGS) turbocharger provides excellent response over the engine's entire rev range. Proven in a series of testing environments, each component of the Euro5-compliant Isuzu diesel engine has been crafted to reduce maintenance costs and increase durability to ensure years of trouble-free motoring.

Trailer Sway Control (TSC) is built-in to all MU-Xs to help you stay in control of what you're towing even if the conditions get gusty. TSC will automatically apply the brake on individual wheels to counteract potentially dangerous swaying of the trailer – keeping you in control.

*Braked towing on all MU-X models when fitted with optional genuine Isuzu MU-X tow bar kit.

Isuzu 4JJ1-TC Hi-Power turbo diesel engine offers a maximum torque output of 430Nm and 130kW of power

B

C

YOUR FUEL EFFICIENCY

Legendary fuel economy takes you further.

From one of the world's leading manufacturers of diesel engine technology, the impressive Isuzu 3.0 litre turbo diesel engine that powers the Isuzu MU-X is as frugal as it is athletic. Delivering plenty of power and torque, this stirring powerplant produces amazing fuel economy from just 7.9^A litres per 100km – which means less time filling up and more money in your pocket to spend on your next adventure.

The MU-X is as efficient as it gets thanks to three core engine characteristics – delivering improved torque output across a wider rev range provides optimum performance and fuel efficiency, while the MU-X's Variable Geometry System (VGS) turbocharger alters the direction of exhaust flow to optimise turbine response at low engine rpm to overcome 'turbo lag'. Overseeing the fuel delivery is the MU-X's common rail high pressure fuel system which uses the latest in fuel injector and high pressure fuel rail technology to effectively minimise the amount of fuel in the combustion process, providing superior fuel economy.

In addition, automatic versions of the MU-X also benefit from the intelligent 'grade-logic' transmission which keeps the MU-X in the correct gear preventing over-revving and unnecessary fuel burn.

FUEL CONSUMPTION FIGURES

Isuzu MU-X Models		Combined Fuel Consumption ^A
4x2 LS-M	A	8.0L/100km
4x2 LS-U	A	8.1L/100km

YOUR OFF-ROAD ADVENTURE

Four-wheel-drive command at your fingertips.

For years, other manufacturers have been displaying their latest family SUV's traversing rocky mountain ranges and cruising along soft sandy beaches – only to be told in the showroom that “you shouldn't really try that.” Well now with the Isuzu MU-X four-wheel-drive you can tackle that always dreamt of destination and reach that out-of-the-way spot with confidence, as it enables you real-world off-road capability.

All 4x4 MU-X models are equipped with Isuzu's super-easy to use “Terrain command” 4WD select dial (2WD-high, 4WD-high and 4WD-low). The automatic transmission will also engage the Uphill/ Downhill Transmission Control System automatically – so when the road that takes you to that secret beach, or hidden mountain range gets tough, your spirit for adventure won't be stopped in its tracks.

Every 4x4 MU-X is also fitted with the rugged off-road protection you need when roughing it. There's a front steel plate skid/splash shield as well as steel plate guards to protect the sump and transfer case. For added driver control and safety, the electronic brake control will also automatically engage the Hill Start Assist (HSA) to prevent vehicle roll-back when starting on steep gradients (above 5.7 degrees). Hill Descent Control (HDC) will give you the confidence to tackle downhill terrain, providing maximum traction and control when activated. Add to this a tried and tested 4x4 drivetrain managed by an intelligent Traction Control System (TCS) with Electronic Stability Control (ESC), along with generous ground-clearance, approach and departure angles - any track is yours to be owned.

A HSA prevents roll back on gradients above 5.7 degrees, while HDC provides maximum traction going downhill

B Underbody protection, front steel plate skid/shield

C “Terrain Command” 4WD system allows for simple shift from 2WD-high, 4WD-high and 4WD-low

D Independent high ride front coil spring suspension with gas shock absorbers, stabiliser bar, upper and lower wishbones

YOUR TOUGH SPIRIT

Over a century of hard working DNA.

Beneath the plush comfort of the Isuzu MU-X, you will find the engineering DNA that delivers our tough and reliable reputation. With a robust chassis delivering superior stability and roadholding in all conditions, the MU-X has gone through strenuous testing in searing heat, heaving rain, hail and even snow to ensure that it will never let you down.

Isuzu has created over 26 million diesel engines around the world, engines that have been honed in trucks and light-commercial vehicles for generations. Under its stylish hood, the Isuzu MU-X boasts an engine that distils everything Isuzu has learnt over the last 100 years to give you an efficient powerhouse that will get you wherever you want to go and back again.

Our confidence in the durability and reliability of our MU-X line is backed up by the Isuzu UTE Australia Service Plus Program, which gives you extra peace of mind when it comes to protecting your investment anywhere around Australia. When you buy an Isuzu MU-X you don't just get an SUV, you get the tools to go your own way with every Isuzu MU-X.

- A** Steel timing chain (not poly belt)
- B** 6-speed automatic and manual transmissions with equal maximum torque output (manual shown)
- C** Sophisticated engine head; cam-to-valve roller bearings and variable swirl action gas flow
- D** Variable Geometry Systems (VGS) turbocharger provides lower emissions and higher engine output
- E** Large intercooler means greater thermo-cooling capacity
- F** High pressure common rail fuel injection system minimises the amount of fuel needed in the combustion process, providing superior fuel economy

OVER A CENTURY OF REFINED
ENGINEERING IS REFLECTED IN THE
RELIABLE ISUZU MU-X.

YOUR MAXIMUM COMFORT

A relaxing ride in any seat.

Cloaked behind the sleek exterior lines of the Isuzu MU-X lies a smartly designed and comfortably spacious interior. The versatile second and third row seats mean that you'll always be able to find a way to accommodate your passengers and anything else you need to take with you without compromising on space or comfort. Wide door arches make access for all passengers a breeze, and when exploring your sense of adventure off-road, there's strategically placed assist grips to help keep you grounded.

With plush cloth seats as standard on LS-M and LS-U models, you and your passengers can relax in comfort - even if you're roughing it in the most remote parts of the country. A seat design with 'wrap-around' bolsters provides increased shoulder, back and base support delivering more comfort for occupants. Experience ultimate driving luxury with leather accented seats* which come standard on the top of the range LS-T model, along with a six-way adjustable electric driver seat to let you find the perfect driving position with ease.

Whether you're driving, or just along for the ride, you'll always find a comfortable and spacious seat in your Isuzu MU-X - you'll enjoy every mile of the journey.

- A** Indulge in the luxurious comfort of stylish leather accented seats* as standard in LS-T models
- B** Extra leg room and space gives extra comfort to the second row seats (LS-T model shown)
- C** The 40/60 second row seat split design allows for a large load space and 3 occupants
- D** Six-way electric driver seat allows you to conveniently find your most comfortable driving position at the touch of a button (LS-T models only)

*Seats have leather touches or accents (excluding third row), but are not wholly leather.

LS-T interior featuring black leather accented seats*

*Seats have leather touches or accents (excluding third row), but are not wholly leather.

YOUR OWN SPACE

Interior space and comfort.

The interior of every Isuzu MU-X is extremely versatile, but also extremely comfortable. There's room for you and a team of six to travel safely, securely and in comfort. Clever split/fold rear seats in both the second and third rows mean that no matter what seating configuration you choose, the versatile interior will provide you and your family with all the head, leg and shoulder room you need for a relaxing journey.

In addition to lounging space, there's also a practical side to the MU-X's interior. There's an abundance of clever storage compartments and with the second and third row seats ability to fold down, there's also an overly generous cargo area when you have a sizeable load to carry. You'll never need to look for another cup holder again, our design engineers have managed to include 12 of them so you'll always have a refreshment at hand.

- A** Second and third row seats fold flat to allow for maximum load space
- B** The 40/60 second row seat split design allows for a large load space and 3 occupants
- C** Third row seats fold flat to provide extra load space to accommodate 5 occupants
- D** 1 Seat folds flat to provide extra load space whilst accommodating 6 occupants

YOUR OWN CONVENIENCE

All the mod cons.

While you're having fun behind the wheel, the Isuzu MU-X has also been designed to keep your family entertained.

Reversing cameras and rear park assist sensors come standard on all MU-X models, along with touchscreen displays. An 8 speaker audio system with iPod® and Bluetooth® phone connectivity and audio streaming is standard across the MU-X range. All MU-X models feature two "Sky Sound" roof-mounted speakers that provide the ultimate audio experience for all passengers. LS-U and LS-T models boast touchscreen SatNav to get you where you're going anywhere in Australia. The top of the range LS-T provides plenty of backseat entertainment with a 10 inch monitor to keep even the most unruly of passengers entertained. The Passive Entry and Start System on LS-T models provides convenient cabin access and keyless start operation, making your getaway quick and easy.

With the MU-X, both you and your passengers will experience comfort and convenience no matter how long your drive.

- A** Get from A to B, wherever you may be, with inbuilt SatNav on LS-U and LS-T models
- B** The fold-down 10 inch monitor provides a clear image display, which can be easily viewed by both the second and third row occupants (LS-T models only)
- C** Back up with confidence, with reversing cameras and rear park assist standard across the MU-X range
- D** Passive Entry and Start System provides keyless locking and unlocking as well as an engine start/stop button (LS-T models only)

YOUR 5 STAR SAFETY

Peace of mind for everywhere you drive.

Your safety on the road is our priority. To ensure this, the Isuzu MU-X is fitted with the latest in sophisticated safety features. Built around a high-tensile steel passenger safety cell with side-intrusion bars, the MU-X carries comprehensive crash avoidance electronics including 4-channel 4-sensor Anti-skid Brake System (ABS) with Electronic Brakeforce Distribution (EBD) and Emergency Brake Assist (EBA) as well as Electronic Stability Control (ESC) with Hill Start Assist (HSA), Hill Descent Control (HDC), Traction Control System (TCS) and Trailer Sway Control (TSC).

Additional protection and peace of mind is provided with six airbags (dual front, front side and full length curtain). For the safety of those around you, all MU-X models come standard with a reversing camera and rear park assist audible sensors. These safety features work in unison to give the Isuzu MU-X a 5 star ANCAP safety rating across the range.
